WHOLE WORLD IN ONE VISION

VISION Russia Pavilion & Conference is designed to create a platform for future development of mutually beneficial business relationships between local integrators and engineers and most proactive foreign companies.

To provide local and international community with the most advanced and innovative technologies, services and software products from the world's leading developers, VISION Russia P&C gather international experts, associations, commercial companies, governmental and R&D institutions.

Unique combination of both industrial and non-industrial applications attract integrators, engineering centers, end-users, OEM's and research institutions interested in machine vision, optical inspection and fault finding.

Now it is right time to join VISION Russia Pavilion & Conference 2016!

PARTICIPATION BENEFITS

«Need a distributor area» within VISION Russia Pavilion & Conference 2016

Beneficial co-location with SEMICON RUSSIA 2016

SEMICON
Russia

Being a major microelectronics event in Russia, SEMICON annually attracts over 1.500 specialists from all over the world in Russia. SEMICON Russia attracts a growing audience of buyers, executives, engineers, and researchers interested in multiple technologies including high resolution cameras, optical inspection and machine vision. Nowadays the complexity of wafers and requirements for quality of electronic components require modern solutions and fast-speed inspection.

+ 1700 visitors

+ 200 program attendees

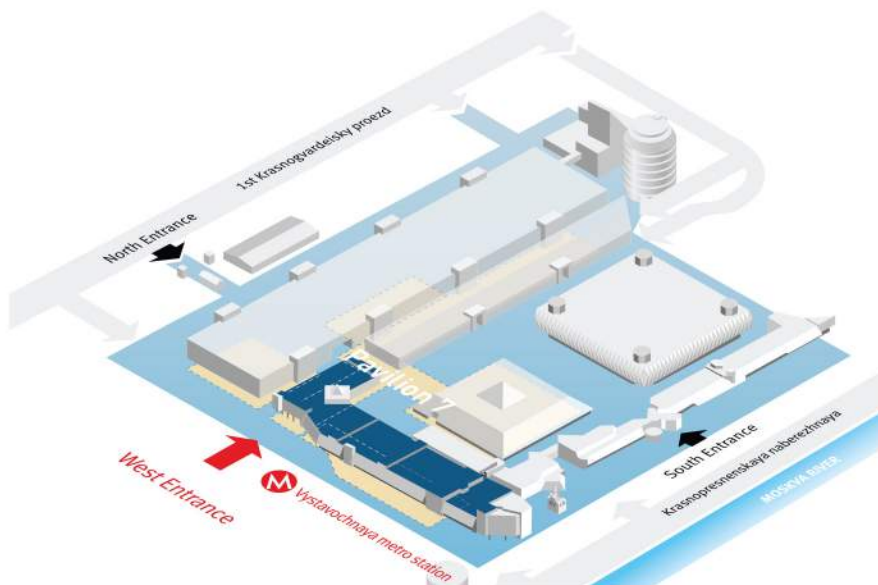

+ 15 conference hours

Expocentre is the most well-known venue in Russia and CIS and the first Russian company which became a member of UFI, the Global Association of the Exhibition Industry in 1975.

Today **Expocentre Fairgrounds** occupies 9 fully equipped exhibition pavilions with modern infrastructure and facilities, 32 multifunctional halls for conventions, conferences, meetings and seminars.

Expocentre Fairgrounds is a unique venue, located in the Moscow City business district close to main highways, hotels and right in front of two metro stations. This is an undeniable advantage in comparison to other venues of Moscow and the Moscow Region as it allows visitors and exhibitors to quickly access the venue and schedule their time more efficiently.

Total exhibition space is 165,000 sq.m.
